**INTEROFFICE MEMORANDUM**

---

---

**TO:** TOWN OF LA POINTE BOARD OF SUPERVISORS  
**FROM:** MICHAEL DALZELL – AIRPORT MANAGER  
**SUBJECT:** MONTHLY REPORT  
**DATE:** 24 MARCH 2015  
**CC:** TOWN OF LA POINTE CLERK

We have received the official Final Determination letter from the FAA for the AWOS project. This is their statement that all the specifics of the installation meet their requirements. And that there were no objections from the Army, Homeland Security, Air Traffic Control, Flight Standards Office, the Air Force and the Navy. (See attached). Next is the DNR recognizing that we are not changing the nature of the wetland at the site. This should be coming along soon and then we can proceed with the project. FCC approval will be needed by the time the system is commissioned.

This is good news.

Respectfully,
