
INTEROFFICE MEMORANDUM

TO: TOWN OF LA POINTE BOARD OF SUPERVISORS
FROM: MICHAEL DALZELL – AIRPORT MANAGER
SUBJECT: MONTHLY REPORT
DATE: 22 NOVEMBER 2015
CC: TOWN OF LA POINTE CLERK

Attached are the minutes of the 20 September meeting which included:

Jim Becker – WisDOT – Office of Environment
Chris Egger – WisDOT – Bureau of Aeronautics
Brad Volker, P.E. – Cooper Engineering Co., Inc.
Cindi Stiles, RPA – Archaeologist
Edith Leoso – THPO, Bad River Band of Lake Superior Chippewa
Michael Dalzell – Airport Manager, Major Gilbert Field / Madeline Island Airport
Jack Gilbertsen, REM (On Phone) – Federal Aviation Administration CHI-ADO

A follow up Action List with the Tribes was drawn up:

- WisDOT will need to follow-up with you (Red Cliff THPO) regarding elders and potential plant species that may have traditional/medicinal importance.
- Bad River (THPO) requested a Bad River Tribal Monitor, which may need to be separate and independent of Red Cliff in the event Red Cliff also requests a tribal monitor.
- Material to be provided to Bad River THPO (Edith) regarding pesticide/herbicide/etc application to trees that are cut down. (I believe they mentioned how the pesticide/herbicide/etc. was applied with a brush of sorts and not sprayed to keep down unnecessary runoff, exposure, etc. – and that future vegetation control would be mechanical – i.e. mowing)
- Bad River (THPO) commented that there appears to be no NHPA concerns; however, there may be NEPA.

and is being implemented so that this project can proceed.

Otherwise, all quite at the airport.

Respectfully,
