**INTEROFFICE MEMORANDUM**

---

---

**TO:** TOWN OF LA POINTE BOARD OF SUPERVISORS  
**FROM:** MICHAEL DALZELL – AIRPORT MANAGER  
**SUBJECT:** MONTHLY REPORT  
**DATE:** 25 OCTOBER 2015  
**CC:** TOWN OF LA POINTE CLERK

We are in a holding pattern with the AWOS project as we await the DOT's evaluation of the various tribe's request as addressed at the meeting in September at the Town Hall and on site at the Airport. Otherwise; some of the major parts of the tower have arrived and are in storage in the old garage building.

On the 10<sup>th</sup> of October there was a large group of approximately 40 aircraft from a group based at Flying Cloud Airport. They had called me a few weeks earlier about having a fly-in here. Kristian's crew, the week prior, mowed some extra tie-down area along taxiway B for the overflow. This group had been here about 11 years ago with a somewhat smaller number of aircraft. They had lunch at the Beach Club and a good time was had by all.

Respectfully,
