
INTEROFFICE MEMORANDUM

TO: TOWN OF LA POINTE BOARD OF SUPERVISORS
FROM: MICHAEL DALZELL – AIRPORT MANAGER
SUBJECT: MONTHLY REPORT
DATE: 25 DECEMBER 2013
CC: TOWN OF LA POINTE CLERK

The weather has put a damper on our usually slow winter air traffic. The road crews have been doing their usual quality work keeping the runway and taxiways clear while not taking out any of the new runway lights. They have also been much better this year keeping me informed as to when they are on the runway.

Xcel was back on the Airport on the 16th to repair, again, the service to the waste treatment plant. Zach let me know in plenty of time to file the appropriate NOTAM.

As of October 1st this year; the FAA requires that all runway condition NOTAMs be re-issued every 24 hours. Since “Thin patchy snow and ice” is often a continuing condition I can no longer just leave it posted “until further notice” I must confirm the NOTAM every day. This change has been an issue with small GA airports like ours.

Respectfully,
