
INTEROFFICE MEMORANDUM

TO: TOWN OF LA POINTE BOARD OF SUPERVISORS
FROM: MICHAEL DALZELL – AIRPORT MANAGER
SUBJECT: MONTHLY REPORT
DATE: 24 FEBRUARY 2014
CC: TOWN OF LA POINTE CLERK

I have been reviewing our Six Year Plan for the BOA. The remaining projects were all petitioned for and approved for Federal/State funding in 2004. I need to renew these petitions for the BOA, which will require both a public hearing and a Town Board resolution. I will include at the same time petitions for work that had previously been pretty much totally at our cost such as:

- sealcoat and crack fill airport pavements (keep that new pavement from '09 new)
- clear and maintain runway approaches as stated in Wis. Admin. Code Trans §55.06(3)
- land acquisition in runway approaches and for airport development (actual land acquisition needs a long look, but consider the new leases filling up the available light industrial lots)
- conduct wildlife site visit (this is an item that the State recommends for their own reasons)
- and any necessary related work.

The first two items, especially, were routine maintenance that was totally at our expense. This is a good thing!

Respectfully,
