

M.R.F. Supervisor's Monthly Report April 8th, 2016

The jobs done by the M.R.F. include:

Accepting incoming garbage
Sorting recyclables
Crushing glass
Working on electronics
Baling the recyclables
Stripping wire
Attempting to get ready for the spring rush
Dealing with old paint and Haz-Mat
Working on the D.N.R. Reports
Servicing the equipment
General clean up
Answering numerous phone calls
Plus our daily routine

Additional info:

1. I still waiting for the wage comparisons to come in. I hope to have a report by the end of the month or for the May meeting.
2. Carey and I successfully completed the Haz-Mat training on the 31st.
3. As soon as things dry up, we will be purging the exchange building. It is once again full of junk. We will try again to start from scratch, in an attempt to keep it from filling up with junk.

Respectfully Submitted,

Ted Pallas Supervisor M.R.F.
