

M.R.F. Supervisor's Monthly Report August 11th 2013

The month of July at the Dump was a busy one. The jobs done by the staff include:

- Accepting incoming garbage
- Sorting recyclables
- Crushing glass
- Baling recyclables
- Sorting scrap metal
- Processing old paint
- Working on the electronics
- Smashing the demo and metal boxes
- Working on the exchange
- Cleaning up the grounds
- Servicing the equipment
- Hauling electronics to Duluth
- Working on the driveway
- Dealing with haz-mat
- Switching out the solid waste and demo boxes
- Cleaning the demo area
- Re-training the public
- Cleaning the shop
- Answering numerous phone calls

Additional info:

1. We had several issues with the newest compactor. I will be installing new pressure switches on Tues. Hopefully that will cure all problems.
2. I have been getting calls about the cap on the old dump. All asking why we don't mow it. I appreciate the concern of everyone. However, so everyone can rest easy I would like to let you all know that the reason it is so long, is Mike Brenna is going to cut for hay.
3. Don't forget the dump will be closed on weds. The 14th. We will be open regular hrs. on thurs. the 15th of august.

Respectfully Submitted,

Ted Pallas Supervisor, M.R.F.
