

M.R.F. Supervisor's Monthly Report October 12<sup>th</sup>, 2014

The things done by the M.R.F. Staff for the month of September include:

- Accepting incoming garbage
- Crushing glass
- Sorting recyclables
- Hauling crushed glass
- Baling recyclables
- Working on Haz-Mat
- Sorting the old paint
- Processing the electronics
- Working on the exchange
- Smashing the metal and construction boxes
- Sorting the scrap steel and aluminum
- Working on the propane cylinders
- Servicing the equipment
- Cleaning up the grounds
- Working on the live load of furniture
- Cleaning the shop
- Answering numerous phone calls
- Plus the daily routine

Additional info:

The glass crusher is wearing out at a high rate of speed. I priced out a new one from Prodeva, it would be special made for us. The new machine would of reinforced steel. Would last many years. This is the most used machine next to the compactor. The new model 318 would cost \$5000.

I would suggest using the money in designated funds for the roof on the old fire hall. It would then budget for the roof in this upcoming budget.

I spoke with Adam and he would be able to rebuild the old one for a back up. We can ill afford to be without this piece of equipment.

Respectfully Submitted,

Ted Pallas Supervisor, M.R.F.
