

M.R.F. Supervisor's Monthly Report September 9th, 2013

The things done by Carey and Ted at the M.R.F. for the month of august include:

Accepting incoming rubbish
Sorting recyclables
Crushing glass
Working on the demo area
Baling the recyclables
Sorting scrap metal
Working on the exchange
Running the nail sweep
Processing the old paint
Working on the electronics
Cleaning up the grounds
Working on the haz-mat
Switching out the demo and solid waste boxes
Servicing the equipment
Cleaning the shop
Answering numerous phone calls
Plus our daily routine

Additional info:

1. The new compactor has been running fine. The repairs made seem to have cured things for now. We built a new cover for the motor and pump, being weather proof should help add to the life of the machine.
2. I am going to schedule the work on the shop lights for sometime next month. Carey and I will be having to help on the project. So there will be some overtime involved.

Respectfully Submitted,

Ted Pallas Supervisor M.R.F.
