

M.R.F. Supervisor's Monthly Report September 19<sup>th</sup> 2012

The jobs done by Carey and myself for the month of August include:

- Accepting incoming trash
- Sorting recyclables
- Crushing glass
- Working on the demo area
- Baling recyclables
- Sorting the scrap metal
- Working on the exchange
- Processing the old paint
- Working on the electronics
- Cleaning up the grounds
- Working on the Haz-mat
- Switching out the demo and garbage boxes
- Servicing the equipment
- Cleaning the shop
- Answering numerous phone calls
- Still re-training the public
- Plus our daily routine

Additional info:

1. I will be sending out another load of recyclables soon. Aluminum is still down, I expect a climb this fall. I will do a load when I am ready to order the wire stripper.
2. Carey and I will be making a trip to Duluth with electronics on the 2<sup>nd</sup> of October. Just awhile ago the town crew brought in a load of computer components. The library upgraded as close as I could tell. After weighing the components \$331 will have to come out of my budget line for this. This has happened over time with the Town Hall, and the Police too. From now on when each department expects to upgrade I think they should contact me and I will be happy to let them know the cost for disposal. The amount can then be budgeted for by each department instead of the M.R.F. having to pay for it. We can discuss the Park garbage at my budget meeting that is a whole other issue.

Respectfully Submitted,

Ted Pallas Supervisor M.R.F.
