

## MRF Interim Supervisors Monthly Report January 6th 2016

The month of December at the MRF was unseasonably warm and productive, the jobs done by Greg and I include:

- Accepting incoming garbage
- Receiving recyclables
- Sorting recyclables
- Baling recyclables
- Crushing glass
- Working hazmat
- Working on scrap metal
- Moving snow (barely)
- Smashing demo and metal boxes
- Working on equipment
- Separating old paint
- Processing electronics
- Separating scrap wire
- Working on the exchange building
- Answering phone calls and e-mails
- Retraining the public
- Plus our daily routine

Additional information:

1. The new glass crusher is in place and operating well.
2. We are in contact with Marissa Fish about finishing the lighting and various outlets needed in the MRF and hope to have her here when she is available.
3. We will be putting the wire stripper into use within the next week or so after some try-out runs and familiarization.
4. Various small runs to Chicago Iron to dispose of and/or market scrap brass, copper, steel and batteries
5. Last but not least continuing efforts to clean and organize the office/shop

Respectfully submitted,

Carey Baxter, Interim MRF Supervisor
