

M.R.F. Supervisor's Monthly Report July 21<sup>st</sup>, 2014

The things done by the crew at the M.R.F. for the month of June include:

Accepting incoming garbage  
Sorting the recyclables  
Crushing glass  
Baling recyclables  
Working on the Haz-Mat  
Sorting old paint  
Separating the scrap metal  
Working on the electronics  
Smashing the metal and demo boxes  
Processing the propane cylinders  
Servicing the equipment  
Cleaning up the grounds  
Working on the exchange  
Switching out the garbage and demo boxes  
Cleaning the shop  
Retraining the Public  
Answering numerous phone calls  
Plus our daily routine

Additional info:

1. We have been very busy at the M.R.F. it has been tough to keep up. To process and ship the recyclables this year has been a challenge. We are slowly getting caught up.
2. I spoke with Pete Clark and we have a plan in place for another try at the exchange program. We will be starting the end of the week. If all goes well I hope to have something going in a week or so. I really think if the program becomes a problem this time, that maybe it has run the course, And should be eliminated.
3. I will have a detailed report for the board in my next monthly report on the cost to the town of running the exchange.

Respectfully Submitted,

Ted Pallas Supervisor M.R.F.
