

MRF Interim Supervisor's Monthly Report November 4th 2015

Jobs done by Ted, Greg and I include:

- Accepting incoming garbage
- Receiving recyclables
- Sorting recyclables
- Baling recyclables
- Crushing Glass
- Working with haz-mat
- Working on scrap metal
- Working on equipment
- Separating old paint
- Processing electronics
- Working on the exchange building
- Answering phone calls and e-mails
- Cleaning and organising office
- Cleaning and organising shop area
- Plus our daily routine

Additional info:

We cleaned out the town hall electronics and shipped them out along with what we have received from the public and are planning on another small run of fluorescent bulbs to Greenlights Recycling on the 18th of this month so if departments could do a quick look around and bring them in now is a good time.

We will be shipping out a semi truck load of Aluminum bales to Chicago Iron next week to be stored by them until the price comes up a bit. Not knowing whether there is going to be ice or ferry this year we feel this is the safest bet to get top dollar for our bales as the price is usually highest mid winter early spring time.

Ted is out of surgery and is doing well... We wish him a speedy recovery. Greg and I will hold down the MRF until his return

Respectfully Submitted,

Carey Baxter Interim Supervisor, MRF
