

M.R.F. Supervisor's Monthly Report April 7th, 2014

The month of March was a snowy one the M.R.F. crew did the following:

Accepted incoming rubbish
Sorting recyclables
Crushing the glass
Baling recyclables
Working on the Haz-Mat
Sorting the scrap metal
Working on electronics
Cleaning the exchange
Moving lots of snow
Smashing the demo boxes
Servicing the equipment
Working on the wire pile
Sorting old paint
Cleaning the shop
Answering phone calls
Plus our daily routine

Additional info:

1. It was the right decision to get the extra garbage across the ice. We have switched out, and are using the last box that we have. Never in my 15 years have we filled up two boxes in the winter. We are on box number three and that is all we have.
2. Carey and I have successfully completed the annual Safety and Awareness class for haz- mat handling, held on March 13th.

Respectfully Submitted,

Ted Pallas Supervisor, M.R.F.
