

Madeline Island Ambulance Service Report

June 2014

Well, it is summer and we are getting a bit busier. We are using 509 now as the driveways and roads are dry enough.

This month we had the Inline Skate Marathon and had a very serious call in relation to it. We needed to transport and called in other EMTs to take over the watch on the skate.

I just had a phone call from Scott Armstrong about getting organized for the swim in August. If their numbers get any higher we may encourage them to have a professional service on the island.

We had the Horton Group come to our June Meeting to talk over retirement options. I just sent them the information they need to get us quotes on the two best options.

Our FCC license has been renewed and our Service Provider license has also been renewed. All of our EMTs passed their refresher and their licenses are renewed.

We discussed the raffle and our involvement with the sale of tickets. We also began the sign up process for the 4th of July Picnic. It is the EMTs year to run the event though the funds are shared. The fire department always helps like we help when it is their year.

I attended the meeting with all department heads and Sarah and I have started to redefine and analyze our fund categories as well as our budget categories. Deena and I also had a meeting with Pete Clark for our regular monthly meeting and we discussed the need to keep moving on our payroll issues.

I will be attending the monthly council meeting.

Respectfully Submitted,

Cynthia Dalzell
