

Madeline Island Service Report

July, 2013

We are in our busy season with regular runs, transports, fire stand by's and lift assistance calls.

We participated in the fourth of July parade and shared the work and proceeds from the fourth of July picnic at the rec center. I have not seen the accounting from the picnic yet and should be getting a report from the fire department. We are also participating in selling raffle tickets along with the fire department. We are scheduled to be on call for the Pointe to La Pointe swim the beginning of August.

Two of our three students have passed their final exams and have been placed on teams with the service. One has yet to take his written test and I will encourage him to get this done as soon as possible.

I will be attending the monthly council meeting. There is a special meeting being held about classes.

We have had several donations sent to the ambulance service. One as a thank you to the library fundraiser and a few smaller ones for wedding presents from guests. I am sending thank you notes to them all. We need to have a way to acknowledge community members that have mentioned that they want to give to the service and make sure that we follow up on these offers. Peter Clark and I have begun that discussion and he has offered to write a general letter of acknowledgement.

The discussion continues about a retirement program for the service. We are working with the Fire Department on a program. The EMT's will have different requirements than the fire department but we will see if we can design a program that is satisfactory for the majority.

Respectfully Submitted,

Cynthia Dalzell, Madeline Island Service Director
