

## Madeline Island Ambulance Service Report

June 28, 2016

We have had one and one non-transport this month. We are all preparing for a busy summer.

Our two potential new EMTs are not licensed yet but we are hoping they will be for our busy July and August season.

We did hold our regular monthly meeting. We went over runs and re-stocked our ditch kits. We discussed the in line skate event and have two EMTs that were on call. The event turned out on a very warm day and for some reason we had a greater number of small injuries than ever before. One patient could have been serious. We needed to call in four other members on the service for assistance. I will speak to Mary about increasing our manpower next summer. We use Washburn EMTs for the Pointe to La Pointe Swim and should do it for this event as well.

Sarah and I have approved the wage resolution that is going before the town board. We have begun performing our new duties as assistant and ambulance director.

I plan to attend the EMS Council meetings this summer.

We did approve the motion to use our funds to purchase a new laptop for the service. We need it for business purposes and have been using our own devices in the past.

It seems no one wants to run the EMS picnic for the 4<sup>th</sup> of July. We are hoping to start another event that some of the Chamber members are talking about. The raffle tickets will be on sale soon.

Thank you

Respectfully Submitted, Cynthia Dalzell, Madeline Island Service Director
