

M.R.F. Supervisor's Monthly Report Nov. 8th, 2013

The month of October consisted of :

Accepting incoming garbage
Sorting recyclables
Crushing glass
Baling recyclables
Working on the exchange
Separating old paint
Processing the electronics
Switching out the demo and solid waste boxes
Working on the haz-mat
Running the nail sweep
Cleaning up the demo area
Putting things away for the winter
Servicing the equipment
Separating the scrap metal
Removing the old appliances
Cleaning the shop
Answering numerous phone calls
Plus the daily routine

Additional info:

1. I am close to working out a deal with Chicago Iron on storing aluminum before we get ice. Lloyd and I are sure the price will be going up when the boats won't be running. I will let you know the deal is set.
2. I will not be able to use up all my vacation time before my anniversary. I would like to be paid for unused time, before it expires . It will probably be around 80hrs.

Respectfully Submitted,

Ted Pallas Supervisor M.R.F.
