

M.R.F> Supervisor's Monthly Report May 7<sup>th</sup>, 2012

The month of April was a bit busy, the jobs done by the crew at the M.R.F. include:

- Accepting incoming rubbish
- Sorting recyclables
- Crushing glass
- Working on the demo area
- Baling recyclables
- Sorting scrap metal
- Working on the exchange
- Processing old paint
- Working on the electronics
- Cleaning up the grounds
- Working on haz-mat
- Switching out the demo and garbage boxes
- Servicing equipment
- Running the nail sweep
- Working on the driveway
- Cleaning the shop
- Re-educating the public
- Answering phone calls
- Plus our daily routine

Additional info:

1. I have been checking on the purchase of an extra open top container. I would like to have it for the live loads of mattresses and couches and things. It would keep things easier to deal with, and a lot neater too.

Respectfully Submitted,

Ted Pallas Supervisor, M.R.F.
