Chiefs report 2/10/15-3/10/15

No calls

We are currently waiting for all the proposals to be returned for the s.c.b.a. equipment to be purchased.

Our new portable trailer pump AVERY has recently been fitted with warning lights, scene lighting, various tool holders, and the appropriate plumbing needed for her job. We hope to train the troops on it at next months training meeting.

A fairly large group of fire fighters, fire fighter/e.m.t, and e.m.t's to travel to Rice Lake Wisconsin for the 33rd annual emergency services conference. There we will be taking a variety of continuing education courses to update and sharpen our skills. This takes place the march 12-14 so as usual every year it's hard to say how we will get back and forth across the lake.

Be safe Rick Reichkitzer
