## FIRE DEPARTMENT REPORT MAY 11- JUNE 10 / 2013

Throughout the last month we have been attempting to get our 2012 incident reports filed with the National Fire Incident report system (NFIRS) The system had technical problems according to the e-mails we receive. We managed to get a couple filed and will keep at it until we are up to date.

### 5/15 Fire on big bay road

Fire toned out from dispatch at 11:41 after receiving a call from Patty Hobin reporting numerous fires on the side of the of the road. Fire-Fighter Julie Schmitt was on scene with a snow shovel. Engine #2 was first to arrive with five personnel, they passed the smaller fire and went directly to the larger fire calling engine #1 to respond to smaller fire. Engine #1 had two personal. Emergency vehicle Dale responded shortly after with eight more Fire Fighters. Fire was extinguished quickly with water, foam and hand tools. Cleared time 13:50. Cause of fire blamed on heavy equipment causing sparks. Nelson construction had a bulldozer ready for back up.

5/29 Red, Alan, and Rick met with Tom Ketchum to discuss our extended service reward plan, we will prepare the information and submit it to the town.

Officer Tibble has received the license for the emergency services raffle and purchased the tickets needed. Information attached.

Alan And Rick re-designed our incident reports sample attached.
